Full job description

For more than 20 years our client has been at the forefront of leading-edge technology when it comes to providing CRAC and precision Air Conditioning. They offer a service that is unrivalled in the industry, from initial specifications, design, manufacture and commissioning through to ongoing maintenance and servicing. They are leaders in their field and have a fantastic reputation couple with a flexible, welcoming working environment.

Role

The primary function of this position is to perform installation, commissioning, and in particular scheduled and emergency servicing of Critical HVAC systems. The core objective is to support their customer's operations by providing regular and occasional call-out fault finding, repairs and general servicing as well as scheduled maintenance.

Skills & experience

- Previous experience with installation and repairs with commercial HVAC systems
- Good mechanical fitting skills and broad HVAC-R understanding and
